

# 3IN1

## EFFICIENCY

We have increased production efficiency by 50%. We reduced the cost of each operation by 30% and reduced the number of administrative steps required to order, stock and dispense tools by 80%

# HAND TOOLS

Through data analysis, we have evaluated that we can consolidate multiple tools into one type and allow one type of tool to be used on multiple operations. We have increased production efficiency by 50%. We reduced the cost of each operation by 30% and reduced the number of administrative steps required to order, stock and dispense tools by 80%.
